

BlueCart™

By AURA Technologies

The best precision telehealth experience.

AURA BlueCart™ is an advanced, user-friendly telemedicine solution, designed to streamline healthcare services in times of staff shortages and high patient demands, with a unique and easily disinfected surface

High Quality Audio & Video

The Ultra-HD high precision camera offers pan, tilt, and 15x optical zoom capabilities.

BlueCart™'s high-fidelity audio system offers a whole new way to experience telemedicine.

Patented Camera Enclosure

With BlueCart™'s sleek design and patented camera enclosure, providers can disinfect the device and move to the next room in less than a minute.

Height Compatibility

With adjustable height and camera tilt, BlueCart™ is easy to position for eye contact and zoom capabilities whether the patient is sitting, standing or lying down.

Benefits for Everyone

BlueCart™ Benefits

Patients

BlueCart™ brings the specialists to you- eliminating the need for travel and allowing you to get the best care possible.

Loved Ones

BlueCart™ allows you to feel like you're connected with your loved ones with the use of a 4K pan-tilt-zoom high-end camera.

Facility

BlueCart™ drastically increases a facility's marketability while also increasing revenue and patient satisfaction.

Providers

BlueCart™ improves efficiency and productivity allowing health care professionals to see more patients faster. This allows for more patients per day, generating higher billing.

Insurance

BlueCart™ aids in timely, thorough patient visits, allowing physicians to see patients at a lower acuity and reducing unnecessary hospitalizations.
